

# High Street Bakery

A much-loved and trusted brand with a strong bakery heritage, competing very successfully in the food-on-the-go market.

Designed & build modular counter which ensures each store gets exactly what's required to make the most of the available space, as well as providing flexibility for future growth. Modules are built complete with all finishes and wiring ready for matrixing together on site. The design provides a practical method of displaying product with little or no structure to get in the way of selling.

With crisp white corian finish and brushed stainless steel the counters are not only functional but present a fresh contemporary look in store.
